Vol. IX, No. 1

January 1965

DECEMBER UNIFORM PRICE \$4.21

Dairy farmers will receive a uniform price of \$4.21 for December 1964 deliveries of Grade A milk to handlers under the South Bend-LaPorte-Elkhart, Indiana, Milk Order. The uniform price is based upon a butterfat test of 3.5 percent, and will be adjusted by a differential of 7.1 cents for each one tenth percent that tests vary above or below the 3.5 percent standard. The minimum price is subject to a 4 cent per hundredweight marketing service deduction, together with the authorized hauling charge. This price is 7 cents less than the November 1964 uniform price, but is 26 cents higher than the uniform price of a year ago. The Class I price for December was 23 cents higher than a year ago.

PRODUCER RECEIPTS

Utilization of producer receipts in Class I is a little over 5 percent higher than it was a year ago. Daily producer receipts were down about 4 percent from last year, and Class I sales were 3 percent higher, which accounts for the increase in Class I utilization. There has been a decrease of 67 producers on the market when compared with the statistics of a year ago. Although the total daily production was somewhat higher last December, individually producers are producing 60 pounds per day more than they were in December of 1963. The average test of producer milk is practically the same as a year ago and about 1 tenth higher than in November 1964.

ORDER NOTES

The referendum conducted on Order No. 31, the South Bend-LaPorte-Elkhart, Marketing Order, has been completed, and the results sent to the Dairy Division in Washington for official announcement. The Chicago Order No. 30, which was conducting a referendum at the same time, had the time for voting extended to January 11, 1965, upon request of producer cooperatives. Final announcement on the referendum of both orders will probably be made at the same time, which is the reason no official announcement has been made concerning this order. There has been a decrease of one pool handler in this marketing area since the November pool statistics were sent out.

CLASS I PRICE

The Class I price for the January 1965 delivery period will be \$4.39 per hundredweight for 3.5 percent milk. The price was computed by adding \$1.10 per hundredweight to the basic formula price (\$3.29) with a zero supply-demand adjustment. The supply-demand adjustment for the February 1965 delivery period will be a minus 6 cents.
